

Thank you for your interest in SQZ Shot Flavors. For us, the idea is simply to provide a fun, original and convenient drinking experience that is like no other.

Our company creates the worlds first portable, 'on-the-go' shot concentrate that is added directly to liquor. We take a popular recipe and re-create the same flavors in a one stop portable squirt bottle that's perfect for parties, picnics, pools, beaches, boating, BBQ's, tailgating, traveling, or a night out. To make a shot, simply combine 'SQZ', ice and your favorite liquor. Shake and serve.

SQZ Shot Flavors is currently expanding and would like to be in every state. We are always looking for distributors and retailers that are interested in our product.

Please take this form to your local store manager. They will use the form to order SQZ Shot Flavors from their local distributor.
